PS Events it's a powerful solution that allows to be used simultaneously by up to 5 photographers, with advanced professional tools and workflows for the event's photo professional requirements.

Main features

- // 5 hot folders for printing
- // Add text to images, frames and logos
- // Picture adjustments: zoom, crop and colour
- // Multiple layout templates
- // Print multiple formats: 10x15cm (4x6") - 20x25 (8x10"), and Double Side

Product Overview

With PhotoSuite Events software you can automatically capture, edit, print, and share any event with ease. The real beauty of PS Events software is that it can be used by up to five photographers at a time and images can be stored in individual hot folders. This feature is particularly useful at events where activities are zoned in different areas, such as trade shows.

Check compatible printers list. PS Events can work with up to 2 photo printers.

PhotoSuite Events is available as a 5 day trial.

Why PS Events?

PS Events software also allows photographers to increase their business by offering untapped new services.

To satisfy the growing demand for instant social photography, which can be shared across social media or printed at a moment's notice, Mitsubishi Electric has created PhotoSuite Events.

Capture life as it happens and capitalise on a growing social phenomenon.

How does it work?
